What I Did With Science This Summer (or WIDWSTS)

This project has you reflect on all the activities you did this summer, pick one & explain how it relates to one of the four main sciences. You probably did all sorts of scientific things without even realizing it!

Your whole project will be done on a 9 x 11 sheet of colorful paper and should take only a few minutes of concentrated effort!

Your grade will be determined by this checklist:

1. _____ An illustration of your activity & a short caption explaining your activity are included. (2)
2. _____ Your illustration is a clear picture, drawing, computer image, etc. of at least 3"x5". (1)
3. _____ Your caption includes: (4)
 - a. The activity you did. (1)
 - b. How the activity relates to science ("my activity deals with...") (1)
 - c. Which of the 4 main sciences it falls under & why. The 4 main sciences are Earth Science, Life Science, Physics and Chemistry. (2)
4. _____ Your caption is written using good grammar & is neatly written or typed. (2)
5. _____ Your illustration & caption are neatly mounted on a piece of colorful 9"x11" paper. (2) (This is provided by your teacher.)
6. _____ You present your activity to the class following proper oral presentation guidelines. (1) (We'll discuss this.)
7. _____ You turn in this paper to get your grade. (1)

This is a fun way to remember your summer & apply it to science this year!

Your Score = _____ Comments: _____
